

Assembling Monkey Talk

Thanks for purchasing the digital version of Monkey Talk!

Preparing Your Game Board

You have two choices for how you can prepare your game board:

Print it off on a regular Legal size paper. It isn't very durable but you can provide a copy to your student as a reminder of the '13 Tools' featured in the game. If you print it on regular 8.5" x 11" paper the game board will be only 8 inches square.

1) You can then have the game board laminated so it will be durable for daily use. Laminate the game cards too!

2) You can also purchase a blank game board from Treetop Publishing in the 12" x 12" size

<http://www.barebooks.com/product-category/game-boards/game-boards-game-boards/> Blank boards cost about \$2.00 plus shipping. You would then trim the board game you printed on Legal paper and glue it to the blank 12" square board.

Printing Cards

Idiomatic phrase cards: print on yellow card stock

Multiple meaning cards: print on red card stock

Communication Cards: print on white card stock

Cut apart all cards.

You can also print on regular colored paper and then laminate the game cards.
