Which is easier for you to hear and understand: the teacher at the front of the room talking or the teacher roaming about all parts of the classroom? Why is one so much harder?

Name a situation during the school day when it is often difficult for you to hear and understand. Why is it difficult?

Name two situations during the school day when it is often difficult for you to hear and understand. Why is it difficult?

The door to your classroom is open. Your classroom is close to the gym and groups of noisy students walk by. What could you do?

Name three things that can make a listening environment difficult.

Name two things that could improve a poor listening environment.

Why it is helpful to sit close to the person talking.

What makes it hard to understand all of what a classmate says when they answer from across the classroom?

It is hard to understand all of what classmates say when they answer or ask questions. Why and what could you do?

There was an announcement and you thought you heard your name but you weren't sure. What could you do?

Your HOH friend quit attending photography club because they could never hear when the meeting dates were over the announcements. What could they do?

Announcements are very difficult for you to hear. What is something that might help?

If you can hear the difference between the words "cat" and "calf" when you are sitting close to someone in a quiet room, does that mean you can hear them if the room was noisy?

In quiet, without watching the talker, how far away can you be and still hear the /SH/ sound?

If your teacher said cat, cap, cast, calf – would you be able to tell the difference between these words if you were not watching her: At 3 feet? At 6 feet? Across the classroom? Why does your ability to discriminate between these words change?

List a time when it is difficult to hear

- a) Your teacher
- b) Your friends.

What is your most difficult listening situation?
What is your easiest listening situation?

What is your most difficult listening situation? Why is it difficult?
What is your easiest listening situation? Why is it easiest?

You teacher is showing a video in class but it is hard for you to understand. What could you do?

You teacher often shows videos in class but they can be difficult for you to understand. What are some things that could help you?

Your teacher turns out the lights and shows a video in class. She talks about the video while it is playing. Why is this hard?
What would be helpful?
