NEW BOOK!

Building Skills for Success in the Fast-Paced Classroom: Optimizing Achievement for Students with Hearing Loss

The purpose of this book is to provide resources that will assist these students in optimizing their achievement through improved access and self-advocacy. It includes many new evaluation materials that assess the communication competence, self-concept development and instructional and curricular access of students with hearing loss. The information contained in this book targets the “expanded core curriculum,” or those **skills that must be mastered in order to benefit from the core curriculum.** The book can be purchased through this website or from *Butte Publishing* (quantity or international orders).

Continuing Education: WEBINARS – Coming in 2012

Webinars are being developed that will allow individuals to further their knowledge and earn CEUs on topics related to addressing the needs of children with hearing loss. 30 & 60 Minutes.

For: Teachers of the Deaf/Hard of Hearing, Audiologists, and Speech Language Pathologists.

Or to build the knowledge of: Parents of Children with Hearing Loss, Students in Professional Preparation Programs: Audiology, Educator of the Deaf/Hard of Hearing, Speech Pathology

One-on-One Consultation – Coming in 2012

This service provides the fresh perspective of a seasoned professional based on the information you provide. Several consulting experts are available. Consultation requires a computer. It is available to family members and professionals.
